Our Philosophy...

We believe in treating each and every resident

—like family

We know how difficult it can be to entrust your loved one to the care of others and we want you to feel comfortable choosing Rockville Skilled Nursing and Rehabilitation Center. As the smallest facility in Nassau County, we provide personalized, skilled nursing, social work and rehabilitative care. From the first day that a resident arrives here, he/she is welcomed, treated with respect and made to feel at home.

For short-term residents, our physical and occupational therapy is outcome-oriented, allowing them to return to the community as quickly as possible. For long-term residents, we strive to help them grow stronger and more enabled as their stay progresses so that they may achieve an optimum level of independence. We are comprised of a highly-skilled staff of doctors, nurses, physical therapists, occupational therapists, speech therapists, dietitians, social workers and recreational personnel to ensure that each resident's individual needs are being met.

It is our unique balance of top-notch services and personalized care that will make your loved one's stay at Rockville Skilled Nursing and Rehabilitation Center a successful one. Our resident's quality of care is as important to us as it is to you.

Call us at **516-536-8000** for more information or to set up a tour.

Our Facilities & Staff

We will provide your loved one with personalized care in a variety of areas. With only 66 residents, our cozy and intimate facility provides residents with the highest level of care in a friendly environment. Here are just a few of the amenities we offer:

Attractive Living Quarters

We have both private and semi-private rooms available, offering comfortable electric beds, telephone service, large windows with pleasant views, cable TV, 24/7 call buttons and much more. Visitors are welcome to join their loved ones between 10 am and 8 pm.

Physical and Occupational Therapy

With a highly-experienced staff and the latest equipment, we provide the best physical and occupational therapy services for our residents. Under the supervision of a physiatrist (a physician who specializes in physical medicine), our therapies are tailored to each individual with the goal of allowing him to improve strength and flexibility while minimizing pain and impairment.

Dietary Services

Meals are served to our residents in cheerfully-decorated dining rooms that encourage socialization. Our menu is varied; always catering to the tastes and dietary needs of our residents. The staff dietician ensures that each resident's meals are appropriate for his dietary requirements. Assistance during mealtime is provided when needed.

Nursing Care

We offer highly-skilled nursing care 24 hours a day, 7 days a week. Our extensive staff of professional nurses and certified nursing assistants is trained in a wide range of specialties, catering to each resident's individual needs.

Therapeutic Recreation

It's important that our residents stay physically active and socially engaged during their stay. Our monthly calendar includes activities such as games, entertainment, religious services, birthday parties, holiday gatherings and more, keeping our residents entertained and energized.

Social Work

Our social workers assist residents in the admissions process. Each resident's individual needs, as well as her adjustment to facility life, are monitored closely throughout her stay. Resident and family support groups and psychological services are provided regularly along with discharge planning for residents who will return to the community.

Outdoor Facilities

As an added bonus, our beautiful outdoor patio is furnished with shaded tables and chairs for guests and their visitors, and a flower-filled garden and planting table where residents grow seasonal fruits and vegetables.
